What qualities did you like most about your instructor?

Attempts to make complicated concepts look easy & comprehensible.

What qualities did you like least about your instructor?

A few more worked-out examples should be included in a lecture. They should be worked out in front of the class, rather than presented as a PowerPoint presentation. Anyhow, please do not discontinue with the PPT presentation, because this way the students have all the notes.

Additional comments about the course and the instructor. A few topics can be reduced so the depth of discussion be improved upon. Overall, this is a nice course.
